Python Homework Setup

WW04.3 | Wednesday, January 26, 2022 | 05:55 PM

1. Find your name in list <https://krovetz.net/135/names.txt>
 1. In both <https://codestepbystep.com> and <https://class.mimir.io/courses/c9628eb685/registrations/new>
 1. Use name exactly as found in list (first and last name - including lower/upper case)
2. Get free account of [codestepbystep](#)
 1. Under "My Account" connect with "California State University Sacramento"
 2. Under "My Courses" add our course (CSC 135)
 1. This will allow [Ted Krovetz](#) to monitor progress
3. Get free account of [Mimir](#) and connect it to our class (CSC 135)
4. Graded programs will be submitted with Mimir and programming exams will use its IDE
